FOR IMMEDIATE RELEASE

### **PistenBully 400 Park Added to Hunter Mountain's Grooming Fleet** *6 Cylinder Cummins QSL 9 engine, 370 hp, quick mount system*

Hunter, NY – Hunter Mountain has added a PistenBully 400 Park to its fleet of groomers for the 11/12 season. The 400 Park machine is considered top of its class in regards to technology and operating comfort and is designed for total precision. A powerful groomer, this new shaping vehicle will help Hunter Mountain remain on the cutting edge in terrain park design.

The PistenBully 400 Park comes loaded with a six-cylinder, 370-horsepower Cummins QSL 9 engine with maximum ground coverage of 31.2 acres per hour. Some attachments include an AlpineFlex Tiller, ParkFlex Tiller and ParkBlade. All attachments can be controlled easily and precisely, making for the most efficient grooming processes, and allows for varied park design.

“We are excited to be adding this new piece of machinery to our fleet of groomers”, explains Russ Coloton, President of Hunter Mountain. “Our terrain park is growing and getting better with each year, and this groomer will just help facilitate the whole process.” Further information about the PistenBully 400 Park groomer is available at [www.pistenbullyusa.com](http://www.pistenbullyusa.com): click “Products,” then “PistenBully 400” and select “Park.”
